WHO CAN STOP YOU

Moto-Master products represent one of the finest lines of replacement and high performance motorcycle brake systems available.

Ever since our founding in 1997 we are driven by the desire for innovation. The *Ultra-lite*, and later-on, our revolutionary *Flame* rotors are some of the many innovations that have given Moto-Master a solid reputation as a leading aftermarket brake systems manufacturer.

Within a decade after our founding, Moto-Master has managed to secure many National, US and World Championship titles, and we have grown into today's dominating brand in Motocross Grand Prix racing.

Many riders worldwide rely on Moto-Master to give them the competitive edge when it comes to stopping power and reliability.

All our R&D, engineering, manufacturing, and warehousing are located in the Netherlands. Customer care, flexibility and rapid availability are key words within our ISO 9001:2008 and TÜV - KBA certified organisation.

We stock one of the widest range of brake rotors on the planet to make sure our distributor network is provided around the clock.

FLAME ADVANTAGE

Next to the premium quality steel alloy which is used to give Moto-Master brake discs unsurpassed friction characteristics and durability, much of the superior performance of a Moto-Master Flame disc lies embedded within its unique design.

MAXIMUM CONTROL

Flame shaped venting slots and outer perimeter ensure an equal amount of contact surface between the brake pad and disc throughout the whole rotation of the disc. This results in smooth and more predictable braking action which allows you to brake harder.

REDUCED BRAKE PAD WEAR

The Flame design ensure the brake pads are always evenly supported on the rotor surface. This prevents the pads from tilting under high pressure.

OPTIMAL COOLING & REDUCED WEIGHT

Flame shaped venting slots are lined up in the linear direction of movement which allows oversize slots without them chipping away at the brake pads.

DISC & BRAKE PAD CLEANING

The Flame shaped outer perimeter and venting slots overlap to continuously clean the whole brake pad contact surface while hot gasses are immediately evacuated.

SUPERIOR DISC FINISH

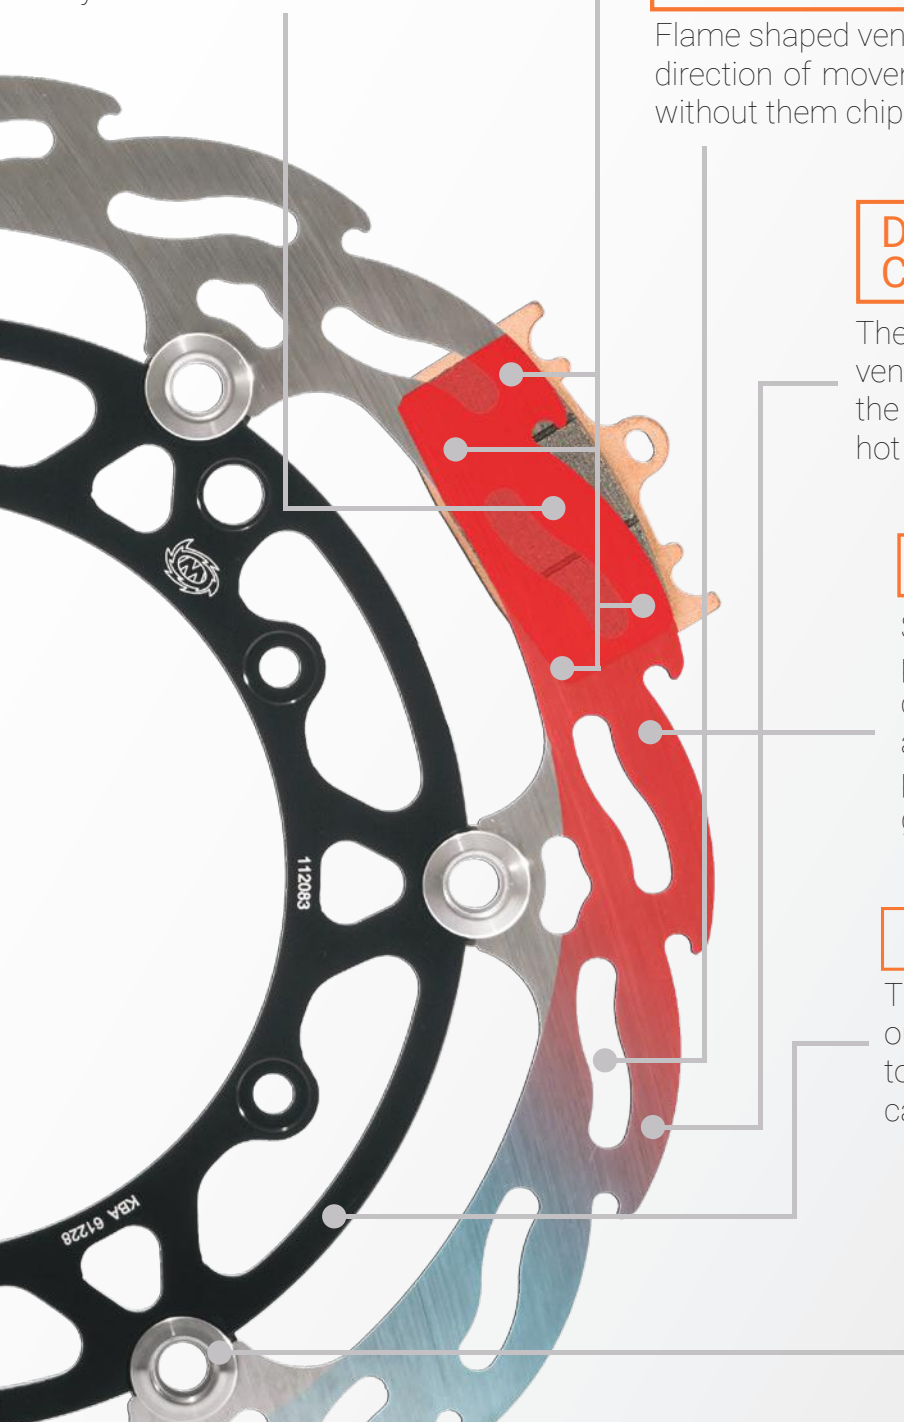

Specialized laser cutting technologies provide a razor sharp cut which won't corrode. Disc thickness is parallel within a 0.003mm margin. This eliminates any possible brake lever pulsation while giving unsurpassed rider feedback.

CRAFTSMANSHIP

The inner carrier is precision CNC machined out of billet aircraft aluminium and anodized to provide the strongest and most durable carrier possible.

LIGHTWEIGHT FLOATER

The rotor is fitted to the inner carrier using a lightweight design stainless steel floater for maximum strength and durability.

A motorcyclist in a white and green racing suit and helmet is leaning forward on a green and black motorcycle. The helmet has 'X-lite' and 'X-802' written on it. The suit has 'X-lite', 'Duelle', and 'GRIMALDI LINES' logos. The motorcycle has 'GRIMALDI LINES' and 'P-RELLI' logos. The background is a light gray with a large, faint, stylized 'M' shape.

PROVEN WINNER

Proven winner in IDM Superbike, European Superstock 1000, Supermoto, Supercross & Motocross and Dakar Rally.

Flame Series Discs

FLOATING AND FIXED

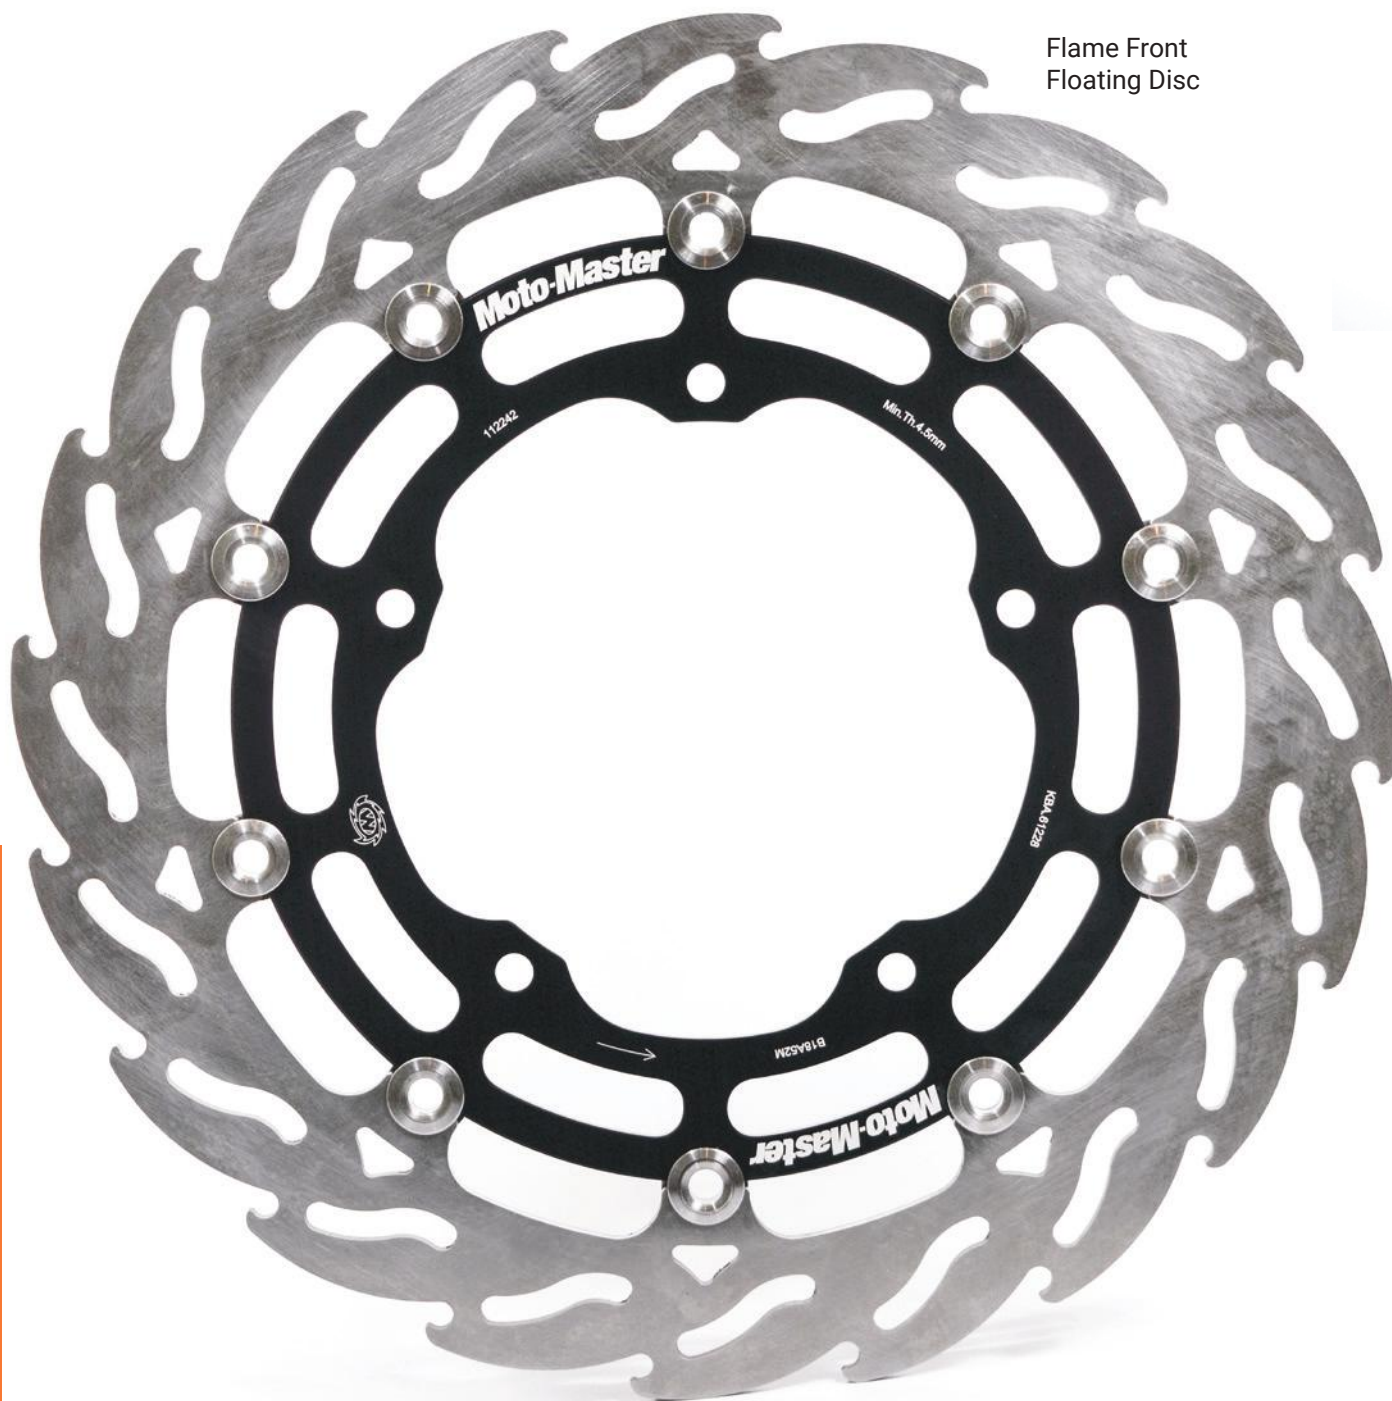

Our Flame Road Series Disc is an instant bolt-on performance upgrade for your bike.

DESIGN & FUNCTION

- The unique Flame design offers optimal cooling and unsurpassed smooth and predictable braking action which allows you to brake harder.
- Check page 4 for all Flame disc details.
- Flame Road Discs are also available in a Racing version for professional racing and Trackday use. See page 42.
- For best performance we recommend using Moto-Master brake pads.

R&D.

MANUFACTURING. ENGINEERING.

Our products are designed to outperform OEM parts and are CAD designed, precision laser cut and machined to the tightest tolerances using state of the art CNC equipment. Moto-Master brake rotors are especially hardened and tempered to give the ultimate combination of strength, wear resistance and hardness.

All our R&D, engineering and manufacturing are located in the Netherlands. We are an ISO 9001:2008 and TÜV - KBA certified organisation.

We never stop improving - our products are developed in cooperation with Factory Teams in Road Racing, Motocross, Rally, Supermoto and Enduro. Together we have secured numerous World Championship and US Championship titles.

Halo Series Disc

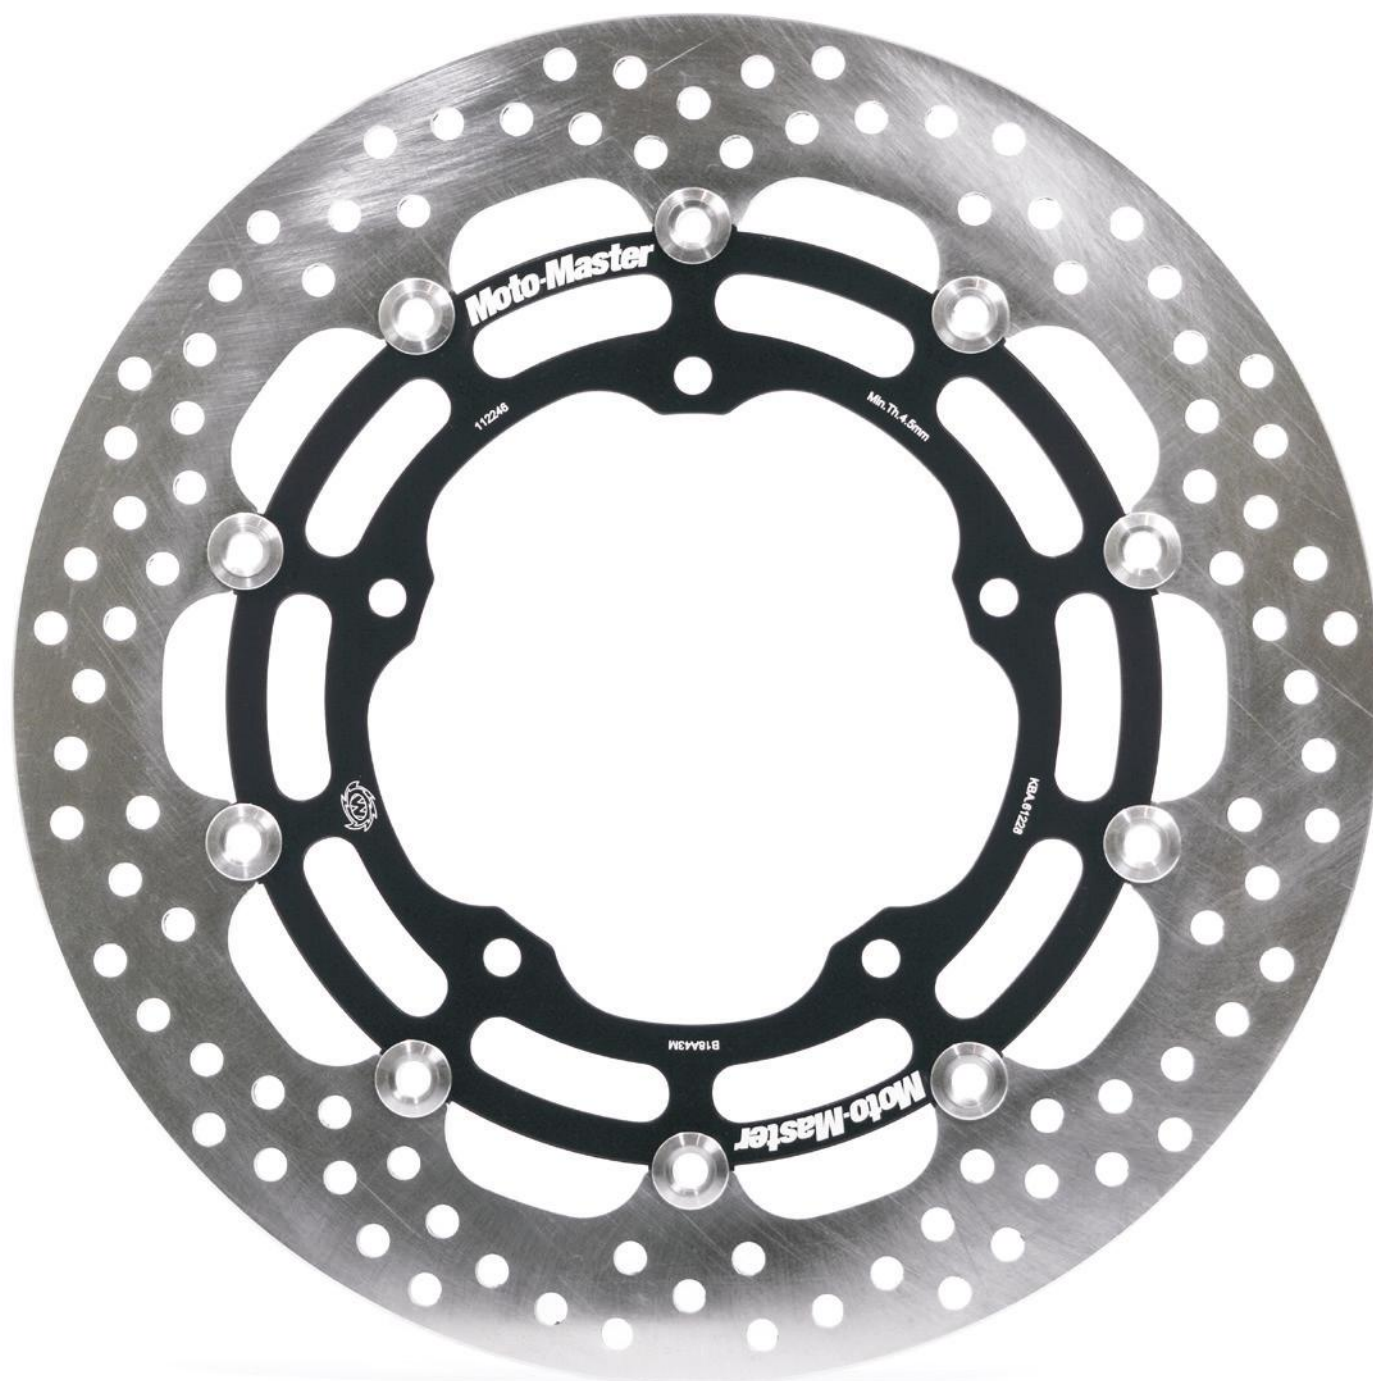

FLOATING DISC

HALO sets a new standard in aftermarket circular-round design brake rotors. Its premium quality stainless steel outer ring allows for high performance braking while at the same time extremely durable.

DESIGN & FUNCTION

- Exact size- and positioning of the venting holes ensures equal heat dispersion under high thermal stress while the brake pad contact surface is cleaned evenly.
- The laser cut and precision grinded outer ring is fixed to a billet CNC machined aircraft aluminium carrier which is black anodized and laser marked.
- Newly designed lightweight stainless steel floaters complete the package.
- Halo Road Disc is also available in Halo Racing version in 5.5mm thickness. See page 42.
- For best performance we recommend using Moto-Master brake pads.

Nitro Scooter Discs

REPLACEMENT DISCS

Nitro Scooter Discs are the ideal budget OEM-replacement. They offer innovative design and performance enhancement according to Moto-Master quality standards.

DESIGN & FUNCTION

- NITRO discs allow for high performance braking while exhibiting extremely little wear.
- Venting slots are integrated into the disc design to aid with cooling and cleaning of the brake pad contact surface.
- For best performance we recommend using Moto-Master brake pads.

Racing Discs

5.5MM RACING DISC

The Ultimate Racing Discs for the serious professional rider. The Disc is available in Halo and Flame design.

DESIGN & FUNCTION

- Exact size- and positioning of the venting holes ensures equal heat dispersion under high thermal stress while the brake pad contact surface is cleaned evenly.
- Disc thickness 5.5mm
- The laser cut and precision grinded outer ring is fixed to a billet CNC machined aircraft aluminium carrier which is black anodized and laser marked.
- Newly designed lightweight stainless steel floaters complete the package.

Custom Harley Discs

UNIQUE DESIGN

The Moto-Master Custom Harley discs are developed to perform under heavy loads and in combination with today's powerful Harley aftermarket brake calipers. Comes in three different designs: Rialto, Tulsa and Adrian.

DESIGN & FUNCTION

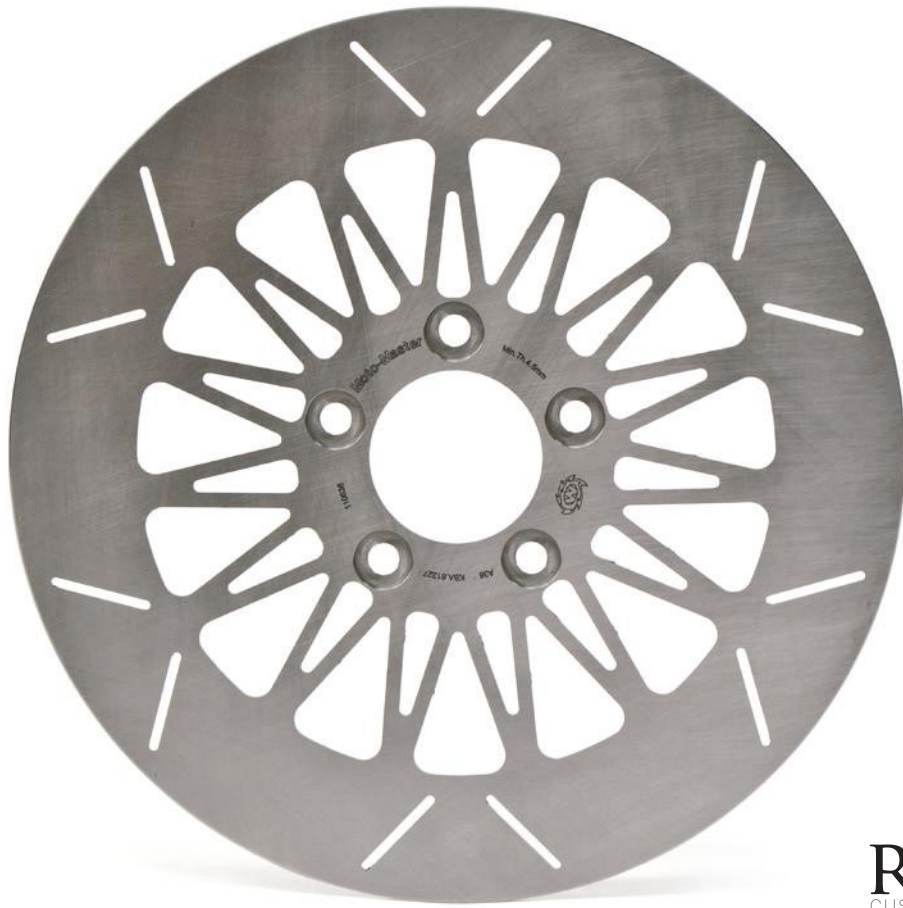

- Made from premium quality stainless steel.
- CNC laser cut and precision double grinded within the tightest tolerances to eliminate any vibration.
- High corrosion resistance
- For best performance we recommend using Moto-Master brake pads.

Brake Pads

SINTERED & CERAMIC BRAKE PADS

Moto-Master RoadPRO Brake Pads are developed to give you the most performance and longest life out of your brake system. RoadPRO pads come in 4 different compounds to best match various bike purposes and models. Moto-Master Road Pro pads are developed to perfectly match Moto-Master Brake Discs.

RoadPRO

RoadPRO Compounds:

Sinter

FRONT

Sintered FRONT street brake pad for new generation high performance sports, touring and custom motorcycles. Offers a combination of fade free brake performance, great brake feel and thermal stability. The RoadPro Sinter Front has been especially developed for sport riding and high loads from heavy motorcycles.

Sinter

REAR

Sintered REAR street brake pad for new generation high performance sports, touring and custom motorcycles. It provides the necessary and expected brake performance in combination with the RoadPRO Sinter front pad.

Sinter

SCOOTER

Sintered compound brake pad for high performance scooters (250cc and up). They deliver excellent braking performance in combination with long lifespan.

Ceramic

Ceramic brake pad for earlier generation sports, touring and custom motorcycles. It offers stable brake performance for front and rear brake.

Brake Pad Pins OEM REPLACEMENT

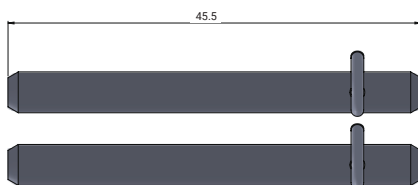

Brake pad pins made of high quality stainless steel.

DESIGN & FUNCTION

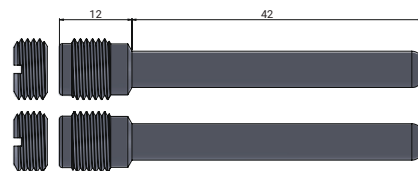

- Original (OEM) replacement brake pad pins.
- Precision CNC machined out of stainless steel for maximum durability.
- Wear and corrosion resistant

BMW Flame Floating Discs

FULL FLOATING DISCS

Moto-Master takes BMW braking performance to the next level by combining the Flame design with a built in full floating solution.

DESIGN & FUNCTION

- The full floating design allows free movement of the outer ring CNC while excess heat is more evenly dispersed.
- Flame design offer optimal cooling and unsurpassed smooth and more predictable braking action, which allows you to brake harder.
- The rotor features a billet CNC machined aircraft aluminium, black anodized inner ring, ultra-light stainless steel floater setup and a precision grinded, premium stainless steel outer ring.
- Flame Road Disc for BMW is also available in a Flame Racing version in 5.5mm thickness. See page 112.

WHO CAN STOP YOU

BMW Flame Fixed Discs FIXED

Our Flame Fixed Disc is an instant bolt-on performance upgrade for your BMW. The disc allows for extremely little rotor wear and high performance braking.

DESIGN & FUNCTION

- Flame design offer optimal cooling and unsurpassed smooth and more predictable braking action, which allows you to brake harder.
- Manufactured out of premium quality stainless steel.

BMW Halo Floating Discs

FULL FLOATING

Moto-Master takes BMW braking performance to the next level by combining the Halo design with a built in full floating solution.

DESIGN & FUNCTION

- The full floating design allows free movement of the outer ring CNC while excess heat is more evenly dispersed.
- Halo Road Disc for BMW is also available in a Halo Racing version in 5.5mm thickness. See page 112.

WHO CAN STOP YOU

BMW Halo Riveted Discs

RIVETED DISCS

Equipped with pre-installed floaters HALO Rivet-pack discs are the ideal BMW OEM replacement. Available for latest version rivet-pack and older retro-fit type applications.

DESIGN & FUNCTION

- Made from premium quality stainless steel.
- CNC laser cut and precision double grinded.

BMW Racing Discs 5.5 RACING DISC

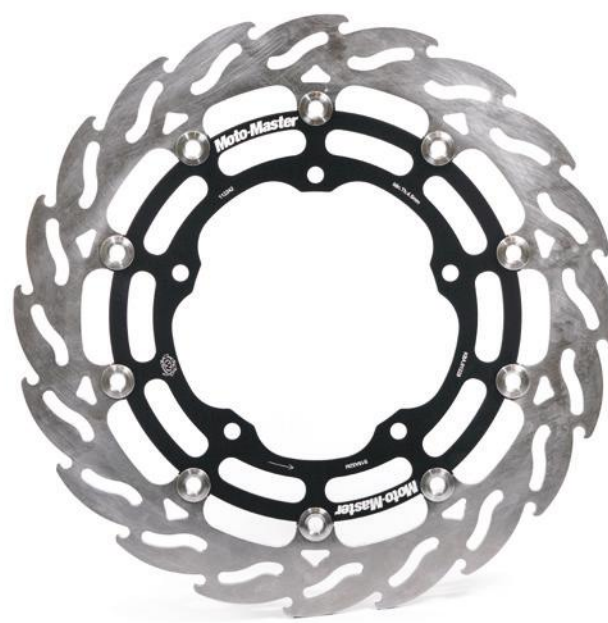

The Ultimate Racing Discs for the serious professional rider. The Disc is available in Halo and Flame design.

DESIGN & FUNCTION

- Exact size- and positioning of the venting holes ensures equal heat dispersion under high thermal stress while the brake pad contact surface is cleaned evenly.
- The laser cut and precision grinded outer ring is fixed to a billet CNC machined aircraft aluminium carrier which is black anodized and laser marked.
- Newly designed lightweight stainless steel floaters complete the package.
- Thickness of the HALO and Flame Racing Discs is 5.5mm.

BMW Brake Pads

SINTERED AND CERAMIC BRAKE PADS

Moto-Master RoadPRO Brake Pads for BMW are developed to give you the most performance and longest life out of your brake system. RoadPRO comes in 3 different compounds to best match various bike purposes and models. Moto-Master Road Pro pads are developed to perfectly match Moto-Master Brake Discs.

RoadPRO

RoadPRO Compounds:

Sinter

FRONT

Sintered FRONT street brake pad for new generation high performance sports, touring and custom motorcycles. Offers a combination of fade free brake performance, great brake feel and thermal stability. The RoadPro Sinter Front has been especially developed for sport riding and high loads from heavy motorcycles.

Sinter

REAR

Sintered REAR street brake pad for new generation high performance sports, touring and custom motorcycles. It provides the necessary and expected brake performance in combination with the RoadPRO Sinter front pad.

Ceramic

Ceramic brake pad for earlier generation sports, touring and custom motorcycles. It offers stable brake performance for front and rear brake.

WHO CAN STOP YOU

Flame Supermoto Racing

320MM RACING DISC

Our Supermoto Racing Disc, designed specifically for use with our Supermoto Racing caliper*, is a 320mm floating rotor in Flame design, utilizing a black anodized aluminium inner carrier. A Supermoto Racing Kit is also available, see page 124.

DESIGN & FUNCTION

- Disc thickness has been increased to 5mm, which allows for no deformation or fading up to 1,004 degrees Fahrenheit (540C).
- *Not compatible with the stock/OEM brake caliper

Flame
320MM RACING FLOATING

Supermoto Racing Caliper Bracket + Adapter

SUPERMOTO ADAPTER

Moto-Master lightweight design, ensure perfect fit and exact caliper position on brake disc while keeping un-sprung weight to a minimum. CNC machined from billet aircraft aluminium, transparent anodized and laser marked.

WHO CAN STOP YOU

Radial Master Cylinder

SUPERMOTO

Our Radial Master Cylinder will maximize the performance of your brake system. While compact in design, this master cylinder uses a forged lever, plate and cylinder to create a strong feel and great durability.

DESIGN & FUNCTION

- The brake lever position is adjustable allowing it to suit any preference, and an optimal leverage ratio built into the design gives you maximum power with just one finger.
- The direct pressure point provides great feedback which ensures optimal control.
- A brake light switch* is also available if needed.
- Black anodized and laser etched aluminium filler cap to complete the package.
- Available in 12mm diameter, these master cylinders are designed for Supermoto Street and Supermoto Racing applications.
- NOTE* Brake light switch sold separately.

Supermoto Racing Caliper

4-PISTON CALIPER

The Supermoto Racing Caliper is built to withstand any thermal and physical stress a caliper will endure when used at top level Supermoto racing. Its rigid design with 4-piston configuration and oversize racing compound brake pads provide all the stopping power you need with a gentle pull of your fingertips.

DESIGN & FUNCTION

- CNC machined out of billet aircraft aluminium.
- Our Racing Caliper is specifically designed for use with our Supermoto Racing Rotor.
- Can be used with your bike's OEM master cylinder and brake line.
- An even more powerful setup can be achieved by adding our 12mm Radial Master Cylinder and stainless braided brake line to the setup.

Brake Lines

FOR MOTO-MASTER SUPERMOTO MASTER CYLINDER

Developed exclusively for use with our Radial Master Cylinder. Stainless steel braided brake lines are lightweight and durable. They provide a significant increase in feel and response due to reduced flex compared to a standard plastic line.

NOTE! For use with our Supermoto Master cylinder.

Flame Supermoto Racing Kit 320MM KIT

For the ultimate in stopping power, look no further. Our Supermoto Racing kit combines all our Supermoto products in one go. This kit was specifically developed for serious Supermoto racing.

For information on individual parts refer to pages 118-119.

Supermoto Racing Kit includes:

320mm Flame Supermoto Racing Disc

4-piston Billet Caliper

12mm Radial Master Cylinder & Lever

Billet Caliper Bracket Adapter

Stainless Braided Brake Line

SinterPro Racing GP Brake Pads

WHO CAN STOP YOU

Flame Supermoto Street

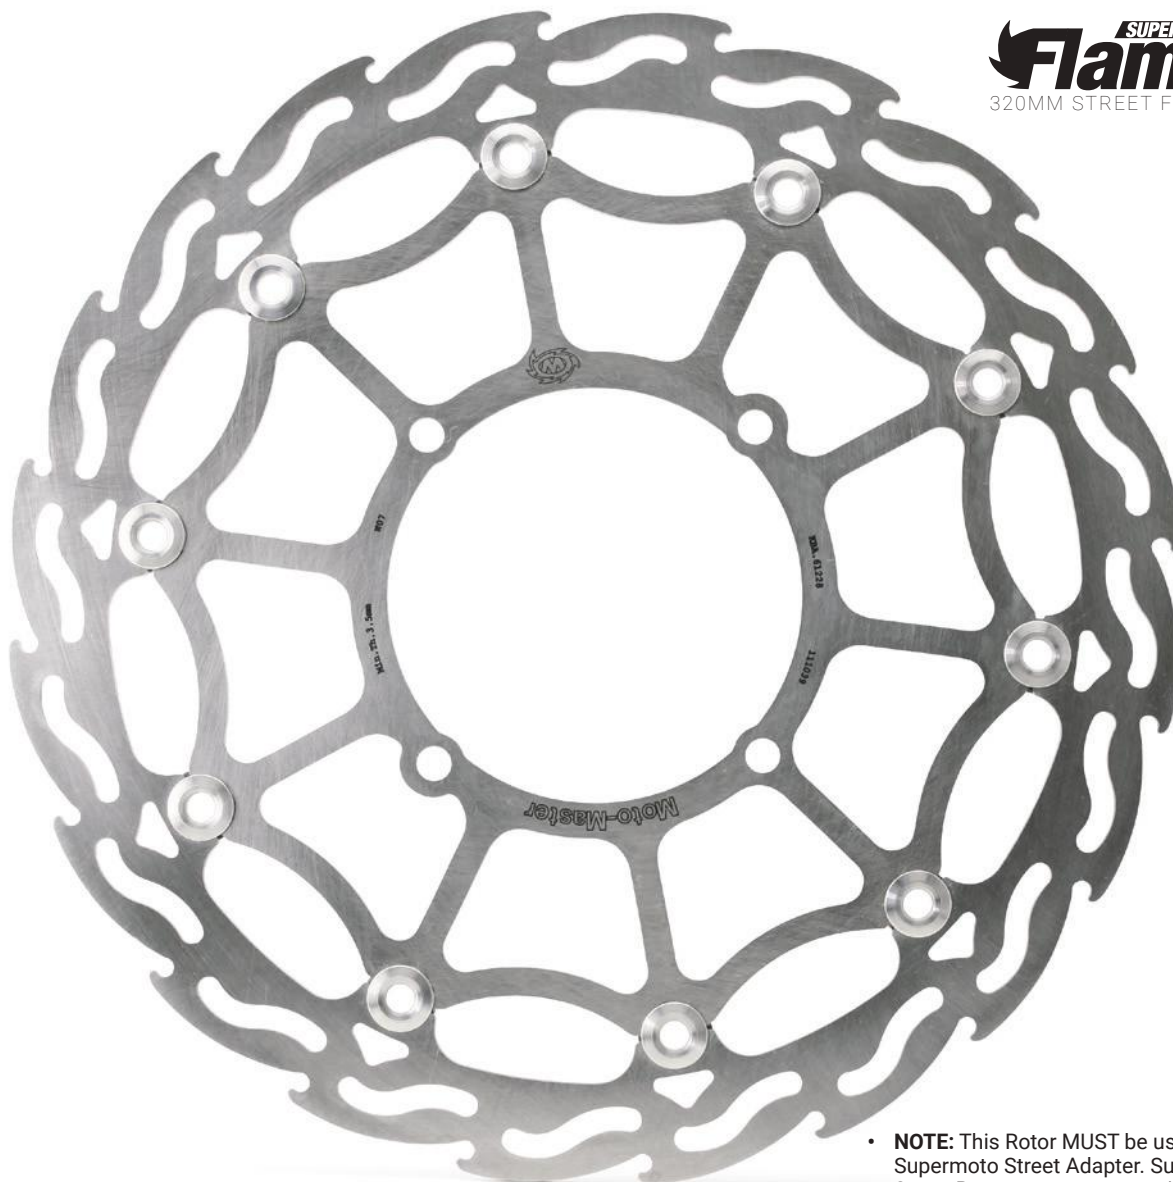

320MM STREET DISC

Our Supermoto Street Rotor is the ideal solution for the rider that wants race-oriented performance without the cost of switching to a full Supermoto Racing setup. A Supermoto Street Kit is also available, see page 134.

DESIGN & FUNCTION

- Designed for use with your stock (OEM) brake caliper.
- Supermoto Street Discs are 4mm thick and utilize a 320mm floating design.
- The Flame outer ring is mounted to a steel inner carrier using 10 lightweight design stainless steel floaters.
- For optimal performance we recommend using Moto-Master SinterPRO Racing GP brake pads with this brake setup.
- The Supermoto Street setup can be made even more powerful by changing the original (OEM) master cylinder to our Radial Master Cylinder and Steel Braided Brake line.

Flame SUPERMOTO
320MM STREET FLOATING

- **NOTE:** This Rotor **MUST** be used with our Supermoto Street Adapter. Supermoto Street Rotors are not compatible with our 4-piston racing Caliper.

Supermoto Street Caliper Bracket

320MM DISC

Moto-Master lightweight design, ensure perfect fit and exact caliper position on brake disc while keeping unsprung weight to a minimum. CNC machined from billet aircraft aluminium, black anodized and laser marked.

Flame Supermoto Street Kit 320MM DISC

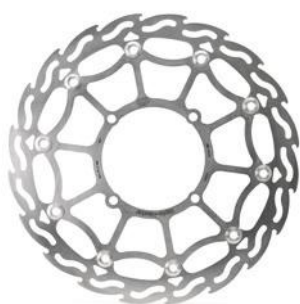

Our Supermoto Street Kit is an ideal solution for riders looking for high-level race oriented performance without the cost of a full Supermoto Racing setup. Designed for use with your stock (OEM) brake caliper it's an economic yet effective one-stop-shop solution.

For information on individual parts refer to pages 119 & 128.

Flame SUPERMOTO
320MM STREET KIT

Supermoto Street Kit includes:

320mm Flame Supermoto Street Disc

12mm Radial
Master Cylinder & Lever

Billet Caliper Bracket Adapter (black)

Stainless Braided Brake Line

SinterPro Racing GP Brake Pads
