Cross-country race specification

"SEROW 250 Cross-Country" with full-scale enduro

A cross-country race specification customized based on the concept of the SEROW 250 used by Kenji Suzuki, DIRTBREAK promotion rider, for the 2016 All Japan Enduro Championship Hidaka 2 Days. We have a rich lineup of special parts such as wheels, suspensions, guards, brake parts, and mufflers, which are important points when customizing an enduro bike.

SEROW
Offroad Girls
tart & pound

SEROW250 of "Off-road small rider's specifications" produced by DIRTBREAK

We made a custom SEROW to make it easier for small riders to ride.

Not to mention the looks, the parts that off-road small riders think "Attentive to the needs" are customized.

The lowdown and handle position are compactly set so that it can be adapted to a small rider. Operability is also improved by installing levers and grips that make it easier to control even with small hands. We are particular about weight reduction such as the muffler and tail holder, and reduce the risk of falling by making the handling of the bike lighter.

Equipped with safe protective parts that firmly protect the parts if they are damaged even if they fall over at the touring destination.

DRC EX PIPE GUARD 4 ST

- Universal exhaust pipe guard for 4 stroke bikes.
- Protect head pipe from stones and rocks.
- Guard body is made of A 5052 aluminum with titanium anodized finish.
- Easy to install with enclosed stainless pipe bands.
- Fits pipe diameter : 26 mm to 50 mm
- Flexible guard design, applicable on most recent 4 stroke dirt bikes.

Part #	Color
D31-01-110	Ti-Color

DRC EX PIPE GUARD 2 ST

- Universal exhaust pipe guards for 2 stroke bikes.
- Protect pipe from stones and rocks.
- Guard body is made of A 5052 aluminum with titanium anodized finish.
- Easy to install with enclosed stainless pipe bands.
- Flexible guard design, applicable on most recent 2 stroke dirt bikes.

Part #	Color
D31-01-130	Ti-Color

DRC HEAT PROTECTOR

- Oval design universal heat protector for 4 stroke exhaust head pipe.
- Made of stainless steel.
- Fits exhaust pipe diameters from 26 mm to 50 mm.
- Comes complete with all mounting hardware needed.

Part #
D31-02-201

DRC STAINLESS EXHAUST CLAMP

- Stainless heavy duty exhaust clamp for 4 stroke bikes.
- Made of stainless steel for less corrosion than steel clamps.
- Available in 3 different sizes to fit most exhaust pipes.

Part #	Length
D31-32-360	Diameter 36 - 39 mm
D31-32-400	Diameter 40 - 43 mm
D31-32-440	Diameter 44 - 47 mm

Replaced mount kit

DRC

PHONE BAR MOUNT

- Bar mount for clamp smart phone or navigation on your handlebar.
- Can be mounted on most handlebar clamp, does not contact handlebar brace.
- Made of A6061 aluminum and black, red and blue anodized finish.
- Light weight design.
- Aluminum spacer · M8 bolt is included and it corresponds to various clamp shapes.
- Aluminium Mounting pipe diameter 22.2 mm.
- Mounting pitch 55 - 110 mm

Part #	Color
D41-07-001	Black
D41-07-002	Red
D41-07-006	Blue

CAUTION

Please check clamp shape and installation pitch.
There are restrictions on the mounting position of the type with the handlebar.

4 positions are available by changing the direction of this product.

2 adjustable height positions.

* If the handle bar has brace bar,
2 positions are available.

DRC EDGE 2 TAIL LIGHT HOLDER 2017-

DRC MOTOLED

EDGE-2 TAIL LIGHT HOLDER CRF250L / M / RALLY

- Edge tail light holder kit designed for HONDA CRF250L/M/RALLY.
- Comes with edge tail light, license plate and flasher brackets.
- The compact design for center of gravity for sport riding.
- Tail light bracket is made of steel for extreme durability.
- Special oval bolt hole allows to adjust up and down tail light position.
- Two different flasher holes for both OEM and 8 mm flashers.

Coupler-on design

EDGE-2 TAIL LIGHT HOLDER

DRC MOTOLED **EDGE-2 TAIL LIGHT HOLDER KLX230**

- A set of Edge Tail Lights and tail light stays designed for the KLX230.
- Its slim and stylish design fits under the rear fender, also provides centralization of mass.
- Also, the long fenders are eliminated, improving the maintainability of the rear wheel.
- Coupler-on design is easy to install and does not require wiring because it is a specific-model design.
- Compatible with stock turn signals. Also, by using the separately sold "DRC MOTOLED Flasher Holder Plate" allows an after market product flasher (8 mm hole) to install .
- Black coating treatment is applied to steel materials with high durability and rigidity.

MOTO LED flashers may not work properly without optional parts.

■ Important note for using LED flasher

LED flashers have very low consumption and the stock flasher relay may not work properly. The most frequent problem, is that the LED may flash at a quick rate using stock flasher relays. Please refer to the chart below to choose our IC relay or Resistor wire for your installation.

	Electric consumption	Difficulty of installation	Parts cost	AC or DC
IC Relay	Low	Skills required	Cheap	DC
Resistor wire kit	Same as stock	Easy	Reasonable	DC/AC

* DRC IC Relay can not be used with motorcycles (XR50/100M, XLR250, WR250F/WR450F, XR650 etc) due to the AC power design. Please use Resistor wire kit for AC power motorcycle.

DRC MOTOLED INDICATOR WIRING

This kit is required when flasher operates like hazard indicators after the IC relay installation.

Place these harnesses in-between the wires from the pilot lamp and the wires from the chassis.

* Some models (*3) require this kit for proper operation.

*3 ----- XR230, KSR110, KLX250, D-TRACKER-'07 etc.

Part #

[D45-91-051](#)

DRC MOTOLED RESISTOR WIRE

When standard bulb flasher is replaced by LED flasher, electric consumption becomes low and stock flasher relay does not work correctly. This Resistor wire helps stabilize the electric power to the LED flasher from stock flasher relay.

: Electric power consumption level is the same as with stock flasher.

: Easy installation.

: One resistor per flasher.

* Some models (*2) require 2 resistors.

: This harness will produce heat when used. Please install in areas where heat is not a problem.

*2 ----- XR230, DR250R, DRZ400S/SM etc.

Part #

[D45-90-710](#)

DRC MOTOLED IC RELAY for DC

Stock flasher relay is designed to work with standard bulb flashers.

When the stock flasher is changed to LED flashers, the stock flasher relay does not work properly due to the difference in power consumption between the stock flasher bulb and the LED flasher. This IC Relay enables LED flashers to work in any configuration.

* Some models require the use of the stock IC relay along with this IC relay. (*1)

: Reduced electrical power usage.

: Some technical skills required for installation.

: One IC relay required for each bike.

: Flasher pilot light can not be used with position light when installed on XR250.

: If the flasher operates like hazard indicators after installation, Indicator lamp wiring kit is required.

: Works on 12V DC.

Can not be used with WR250F/450F

*1----- RMX250S, DRZ400S/SM etc.

Part #

[D45-69-830](#)

Installation of the LED flashers requires special knowledge and technique. Please contact your local dealer if you have any question upon installation.

DRC RIM TAPE

- Protect your tube from nipple heads, valve and rim burrs.
- Excellent water resistant design, prevents dirt, mud, sand and water from entering inside of tire from nipple holes.
- Less sticky glue remains on the rim when replaced, easy to replace.
- Tape roll type, can be used for many wheel sizes.
- Available 2 sizes.

Part #	Rim size	Size
D43-10-024	1.40 to 1.60	Width 24mm / Thickness 0.68mm / total length 5m)
D43-10-030	1.85 to 2.15	Width 30mm / Thickness 0.68mm / total length 5m)

DRC AIR VALVE CAPS PLASTIC 4 PCS

- Plastic air valve cap.
- Available in 4 factory colors.
- Comes in 2 pairs and 2 colors.

Part #	Color
D58-03-211	Blue & Green
D58-03-212	Red & Yellow

DRC AIR VALVE CAPS

- Aluminum air valve cap.
- Add some "bling" to your bike.
- Available in 6 beautiful anodized colors.
- Comes in pairs.

Part #	Color	Part #	Color
D58-03-102	Blue	D58-03-105	Ti-Color
D58-03-103	Gold	D58-03-106	Red

DRC RIM LOCK

- Die-cast aluminum body with molded rubber flap to prevent abrasion of inner tube.
- Recommended for use on all off road bikes or any use that requires low tire pressures.
- Bolt is made of SUS304 stainless steel to prevent corrosion.
- Available in 5 different sizes.

Part #	Size
D43-21-014	1.40 inch
D43-21-016	1.60 inch
D43-21-018	1.85 inch
D43-21-021	2.15 inch
D43-21-025	2.50 inch

DRC RIM HOLE PLUG

- Plug cap for rim lock holes on the rim.
- Prevents mud and dust from entering the tire through the rim lock hole.
- Comes in pairs.

Part #
[D58-03-301](#)

DRC UNI-FLOW HOSE

- Gas cap hose with one way valve.
- Prevents fuel from flowing out of gas tank.
- Swivel valve design allows smooth removal of gas cap without twisting the gas cap hose.
- Valve is made of 7000 grade aluminum.
- Available 4 hose colors.

Part #	Color
D58-08-201	Black
D58-08-202	Red
D58-08-203	Blue
D58-08-206	Orange

DRC SKID PLATE FOAM

- Prevents mud from accumulating and adding weight to your machine.
- Installs between your skid plate and engine.

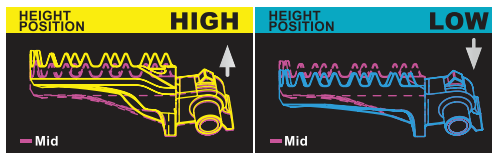

Part #	Size
D58-17-012	300 mm x 150 mm x 40 mm

DRC
WIDE FOOTPEG

- Durable steel wide foot pegs.
- Made of chromium molybdenum steel for extreme durability.
- 50 mm step width provides better grip and control.
- Mid, High (5 mm higher than medium peg position) and Low (5 mm lower than medium peg position) are available for rider's body type or use. (Excluding some models.)
- Black powder coating finish.

* Foot peg height may differ from stock peg height on some models.

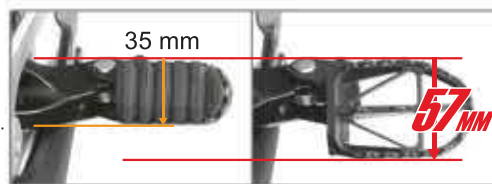

High gravity point allows for easy lean on the bike. Good for shorter riders.

Low gravity point provides better traction during standing ride. Good for taller riders.

**DRC**
ULTRA WIDE FOOTPEG

- Wider foot pegs than our DRC foot pegs for pro use.
- 57 mm width foot pegs provides better foot peg traction and control.
- Made of chromium molybdenum steel for extreme durability.
- Black powder coating finish.

MOTARD
IKKI MORITA

MOTARD FOOT PEG

- 50 mm step width provides better grip and control.
- Shorter length, higher peg position for super moto racing use, prevents peg body wear by hitting asphalt.
- Equipped with replaceable peg slider.
- Made of chromium molybdenum steel for extreme durability.
- Black powder coating finish.
- Replacement peg slider available.

EQUIPPED PEG SLIDER

REPLACEMENT PEG SLIDER

Comes in pairs.
4 screws for attachment are included.

Measuring rear axle vertical with no Load.

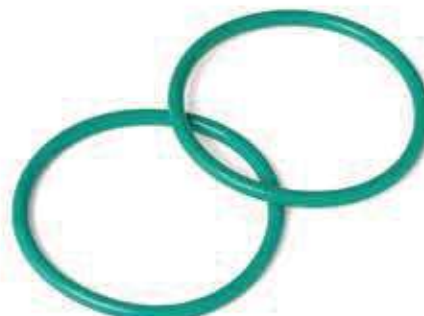

DRC REAR SUSPENSION LINK KIT LOWDOWN / LIFT UP

- Kit to lift up or lowdown the bike.
- Allows to optimal bike position for a rider by changing seat height, link ratio, caster angle.
- The lowdown type : The amount of descent is designed to maximize the performance without losing the off road function.
- The high lift type : Allows improved nimble steering and better traction as the wheelbase be comes shorter with a steep caster.
- Easy installation with two bolts.
- Black color.

[Important note]

As the link ratio changes, the lowdown type makes the suspension softer, and the high lift type becomes harder. Please re-adjust the front and rear suspension as necessary. Depending on the setting, modification may be required on the side stand in some case.

DRC FF STROKE INDICATOR 48-49 mm 2 pcs

- STROKE INDICATOR for front fork.
- Convenient for suspension setting and confirming 1G.
- For installation, remove the fork and spread it from the top of the outer tube.
- The material is fluororubber, which is excellent in oil resistance, heat resistance, and weather resistance.
- Compatible with inner tube diameters of Φ 48 mm to Φ 49 mm.

RADIATOR CAP

- High pressure radiator cap for racing use.
- High pressure of 1.6 kgf / cm² increases coolant's boiling point.
- Prevents the boiling and vaporization of the coolant during hard riding.
- Protects your engine from overheating.

DRC DURA REAR SPROCKET

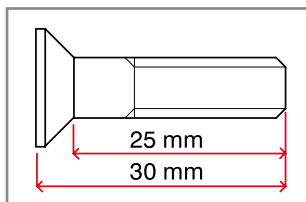

- Made of durable heat treated steel that is stronger and longer lasting than aluminum sprockets.
- The best balanced, durable and light weight design. 30% lighter than standard steel sprockets available on the market.
- Precision laser cut for the lightest steel sprocket design.

DRC SPROCKET BOLT / NUT SET

- Sprocket mounting hardware.
- Kit includes 6, 8 mm tapered bolts, 6 washers and 6 locking nuts.
- Can be used for most dirt bikes.

Part #	Bolt Size
D58-32-282	M8 x 25 mm

DRC CHAIN ROLLER

- More durable than stock
- Available in 3 diameter sizes.
- Colors available: black, blue and red.

S size (32 mm)

ACCESSORIES

PRO SPOKE WRENCH

- Interchangeable tips to fit 8 sizes of spoke nipples.
- Main shaft is CNC precision machined from 7000 grade aluminum and designed for optimum grip.
- Tips are made of heat treated steel for strength.
- Available in 3 hard anodized colors.
- Standard and mini sizes available.

Tips Size 5.6 - 7.0 (Standard)

(5.6 / 5.8 / 6.0 / 6.2 / 6.4 / 6.6 / 6.8 / 7.0 mm)

Part #	Color
D59-15-060	Ti-Color
D59-15-061	Red
D59-15-062	Blue

Tips Size 4.0 - 6.2 (Mini)

(4.0 / 4.4 / 5.0 / 5.2 / 5.6 / 5.8 / 6.0 / 6.2 mm)

Part #	Color
D59-15-160	Ti-Color
D59-15-161	Red
D59-15-162	Blue

SPOKE WRENCH CRF50/DRZ50

- Spoke wrench for CRF / XR50, DRZ50 / 70 and KX65.
- Tip size is 4.0 mm for stock CRF / XR50, DRZ50 / 70 and KX65 spoke nipples, 5.0 mm size for after market spoke nipples.
- Made of durable steel.

Part #	Tips Size
D59-15-900	4.0 mm & 5.0 mm

BEAD CREAM

- Compact bead cream fits any tool box.
- Comes in a compact plastic case. (Net : 40 g)
- Includes application sponge.

Part #
D51-50-120

AIR VALVE BIG NUT

- Nut for valve stem that can be used without a wrench.
- Also for use as a tool to help pull the air valve stem when changing the tire and keep the valve stem out when pumping the air in.
- Knurled surface is easy to turn.

Part #	Color	Size
D59-04-220	Red	W 20 mm x T 6 mm

Before

Hard to approach with tool
and to pump air in.

After

PRO SPOON TIRE IRON WITH WRENCH

- One end fits the axle nut, the other end is a tire tool.
- Made of heat treated steel.
- 25 cm (10") to 26.5 cm (10.6") wrench length.
- Wrench available in 6 sizes.

DRC BEAD HOLDER

- Keeps the tire bead down during the tire change.
- Hooks over the spoke and pushes down on the bead for easy tire installation.
- Durable rubber grip for easy operation.

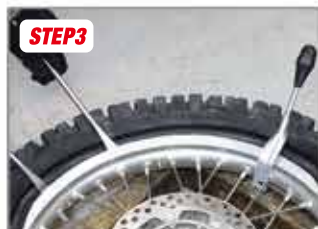

Part #
D59-11-071

Insert the tire bead into the wheel rim after installing the tube.

Insert lever part of the bead holder into the wheel rim and hook over spoke as shown above picture.

Keep the tool inserted and insert the tire bead into the wheel rim.

Tire bead won't come off with bead keeper. Smooth and easy operation.

DRC AIR VALVE PULLER

- Easy to pull the air valve stem through the hole on the rim.
- Useful during tire changes and flat repairs.
- Air valve puller head may also be used for air valve core removal.

Part #	Color
D59-38-201	Black
D59-38-202	Red
D59-38-203	Blue

MXA RATING

This simple little tool is worth its weight in gold when it comes time to go valve stem fishing.

Pass air valve puller head through the valve hole.

Install valve puller head on air valve on the tube.

Replace air valve in the tire.

Pull on the air valve wire. The air valve will appear.

DRC TIRE IRON 400 mm

- Standard tire lever.
- Long length for easy operation for hard tire removal.
- Made of durable heat treated steel.

Part #
D59-10-005

DRC PRO SPOON TIRE IRON

- Designed for all types of tire changing needs.
- The bend of the lever and wide spoon area is designed for quick and easy tire removal.
- The durable rubber grip provides better grip.
- Available in 2 different lengths.

Part #	Size
D59-10-113	230 mm (9.2")
D59-10-012	260 mm (10.4")

DRC AIR VALVE EXTENSION

- Extension air valve changes the valve angle.
- Great for use on small wheel motorcycle, motard wheels with a big brake disc.
- For use with straight type air pump hose.

Part #
D58-12-100

DRC AIR VALVE EXTENSION with HOSE

- Air valve extension with a hose.
- Easy to operate with flexible rubber hose.
- Hose length : 150 mm

Part #
D58-12-110

DRC AIR VALVE CORE DRIVER

- Valve core remover designed for quick operation.
- Remover tip is made of chrome molybdenum steel for durability.
- Aluminum knurled grip.
- Length : 45 mm

Part #	Color
D59-04-100	Ti-Color
D59-04-103	Red

DRC Air Valve Core

- Replacement air valve core.
- Wide temperature range (-54°C~150°C/-65.2F~302F)
- Constructed to provide a good seal. Sold in pairs.

Part #
D58-12-002

DRC Cold Patch

- Tube-type motorcycle tire repair kit.
- Large, medium and small patches included.
- Comes with metal scuffer and rubber cement tube in plastic case.
- Replacement rubber cement available.

Part #
D43-02-110

DRC C301 MINI PUMP JP

- Dual stroke internal parts, pumps on both pushing and pulling motion.
- Light weight and compact 6063 aluminum barrel.
- T-handle for easier inflation.
- Reversible adapter fits Presta and Schrader valves.

Maximum pressur	: 820 kPa / 120 psi
Body size	: L 270 x W 40 x H 25 mm
Weight	: 110 g

Part #

GYROSTAND

DRC

GYRO STAND

- One stand works for truing, balancing wheels and checking bearings.
 - Durable frame provides stability for accurate wheel truing and balancing.
 - Accepts rim widths up to 5.0 inches, rim sizes up to 23 inches.
 - Foldable design saves space.
 - Use on wheels with bearing inner diameter of more than 15 mm.
- * Optional shaft set is required for bearing diameters less than 15 mm.

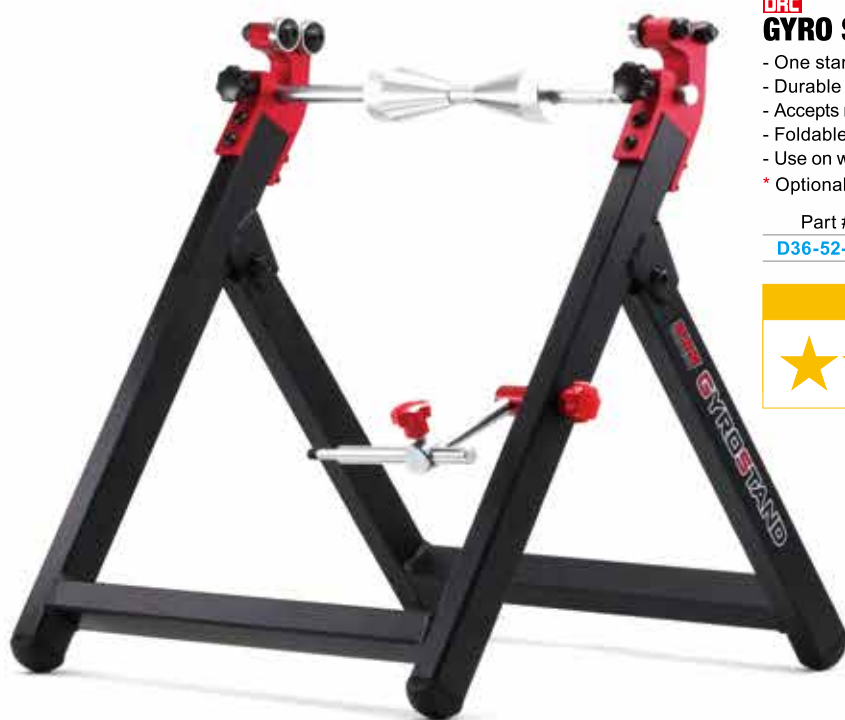

Part #

D36-52-110

MXA RATING

Given its reasonable price, the DRC Gyro stand could pay for itself in a couple of do-it-yourself wheels-truing sessions.

Can be folded to a very compact size for storage.

Wheel Truing Bearing Check

Lock wheel rod for wheel truing and bearing check.

Wheel Balance

Double bearing roller for wheel balancing.

DRC

OPTIONAL 10mm SHAFT SET

- For wheel bearings with inner diameters from 10 mm to 15 mm.

VICE ADAPTER

- Hold this adapter by vice, and attach base valve wrench for easy compression valve maintenance.
- Can be used with all ENZO DRC Base valve wrenches.
- Made of machined aluminum, with titanium anodized finish.

Part #

[ED59-37-250](#)

OIL INJECTOR

- A tool to easily and reliably inject fork oil when raising the oil level with the Front suspension setting.
- Remove the air valve screw on the top cap and insert the end of the hose.
- Even with a handle or number plate, you can inject oil without spilling.
- Closed type syringe is easy to operate with light force and enable accurate metering. The piston has excellent oil resistance and can be disassembled and cleaned. Capacity is 20ml and spare piston seal is included.

Part #

[ED59-37-280](#)

Provides more stability on the table.

Clamp lever :
The clamp lever requires no other tools to set a fork.
The clamp lever is freely adjustable at an angle.

Spacer: A spacer is included.
The KYB / SHOWA fork ($\phi 59.2$ mm) fork can be clamped when the spacer is installed, and the WP (clamp diameter $\phi 60$ mm) fork can be clamped when the spacer is removed.

Can be used with a vise when removing the clamp lever.

ENZO DRC OUTER TUBE CLAMP

- ENZO DRC co-developed product.
- Grab a front fork perfectly.
- Convenient to open the tightly closed top cap.
- Provides three ways capability.

Part #	Outer tube Diameter Size
ED59-37-260	WP : 60 mm, KYB/SHOWA : 59.2 mm

ENZO DRC REAR SHOCK HIGH COMP ADJUSTER

- ENZO DRC co-developed product.
- Click feeling allows easy adjustment of rear suspension high compression.
- Available for 14 mm and 17 mm adjuster sizes.

Part #	Size	Color
ED59-37-214	14 mm	Black
ED59-37-217	17 mm	Blue

ENZO DRC FRONT FORK BRACKET HOLDER

- ENZO DRC co-developed product.
- Pushing front fork bracket easier when holding inner cartridge rod.
- Can be used on 20 mm, 22 mm, 25 mm, 26 mm and 27 mm axle sizes.

Part #	Shaft Size
ED59-37-240	Diameter 32 mm x Length 320 mm

FORK CAP SPINNER KYB / SHOWA WP

- ENZO×DRC collaboration tool.
- Both hands to loosen the top cap.
- The leverage power helps it rotate.
- Rod stopper is convenient for disassembly.
- Made of aluminum.
- Length is about 300 mm.

Part #	Front Fork	Material	Length
ED59-37-310	KYB/SHOWA	Aluminum	300mm
ED59-37-320	WP		

CARTRIDGE LOCK TOOL

- ENZO×DRC collaboration tool.
- A tool to tighten the lock nut on the cylinder and tank joint of the inner cartridge on the front fork of the closed cartridge.
- Place a 3/8 inch (9.5 mm) tool mounting hole and tighten using a general tool (spinner handle, torque wrench, etc.).
- Lock nut outer diameter ϕ 35mm.
- Pin diameter ϕ 4mm.
- Made of steel, painted black.

Part #	Front Fork	Material
ED59-37-290	KYB/SHOWA/WP	Steel

DRC SEALING BOLT ATTACHMENT

- Removable tool for SHOWA SFF air fork bottom sealing bolt.
- Specially designed for SHOWA SFF Air fork.
- Sealing bolt size = Allen key 22 mm
- Can be used on front suspension equipped CRF250R, KXF450, RMZ450'15-

Part #	Suspension
D59-37-120	SHOWA SFF-AIR

DRC FRONT FORK SEAL INSERT GUIDE

- Front fork dust and oil seal insert guide.
- Prevents damaged seals during installation.
- Made of smooth surface stainless steel for easy installation of your dust and oil seals.
- Available in many sizes to fit most motorcycle front fork.

Part #	Size	Part #	Size
D59-37-145	45 mm	D59-37-148	48 mm

Bleeding bolt Type

Use only cup for the suspension equipped air bleeding bolt.

DRC

RCU BLEED CUP

- Air bleed cup for KYB, SHOWA and WP rear suspensions.
- Make your rear suspension air bleeding easy.
- Titanium anodized with DRC laser printed logo on cup body.
- Can be used on suspension with bleeding bolt hole.

Part #	Suspension	Color
D59-37-157	WP	Orange / Blue
D59-37-158	SHOWA 1	Blue
D59-37-159	SHOWA 2	Gold
D59-37-160	KYB	Red

Oil stopper

Oil stopper in cup prevents sudden oil spit.

SPRING COMPRESSOR

- Spring removal tool for twin shock motorbikes.
- 2 spring hooks hold the springs secure while compressing the springs, make it easy to remove the springs from the shock bodies.

Part #	Adaptation
D59-29-101	Twin Shocks

GAS CAP EXTRACTOR

- Special tool for removing rear suspension gas cap.
- Does not damage gas cap valve thread.

Part #	Material
D59-37-110	Aluminum

Also useful to pull out the top cap of the air front suspension.

KYB/SHOWA

WP

RCU SEAL HEAD INSERT KIT

- Seal guide for Rear suspension seal head.
- Does not damage oil seal during installing suspension seal.
- Available for KYB/SHOWA and WP rear suspension.

Part #	Suspension	Outer diameter	Inner diameter	Material
D59-37-135	KYB/SHOWA	φ 14/φ 16/φ 18	φ 12	Aluminum
D59-37-136	WP	φ 18	φ 12/φ 16	

Part #	Material
D59-37-164	Aluminum

COMP ADJUSTER SOCKET 24 mm

- A special tool to remove the compression adjuster of the rear shock.
- It is possible to easily remove the shock body of a shape which doesn't allow to be approached by the spanner or the monkey wrench. For 24 mm width.
- By providing a square hole of 3/8 inch socket, you can use the ratchet wrench to increase work efficiency and use torque wrench to control tightening torque.

SEALHEAD PUSH TOOL

- A useful tool for disassembling rear shock.
- It can be easily pushed down without damaging the seal head when detaching the circlip of the shock body.

Part #	Material
D59-37-166	Aluminum

AIRVALVE ADAPTER 69 mm

- Easy access to the air valve in the back place where shock pump was difficult to access.
- * Please be sure to install it on the shock pump and then set it on the bike.

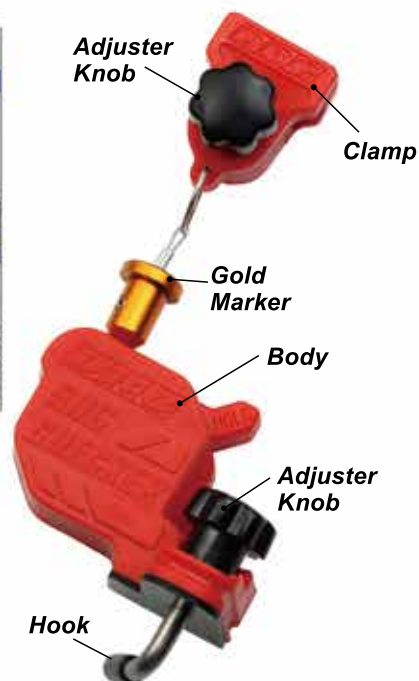

Part #	Length
D59-37-162	69 mm

After checking sag, remove clamp from side panel, and attach sag body.

You can also check front fork sag with this tool.

DRC

SAG CHECKER

- Allows you to measure suspension sag by yourself easily.
- Measure front and rear suspension sag easily with this kit.
- Clamp comes with rubber parts and will not damage your plastic fenders or side panels.
- Clamp anywhere on side panels, rear fender or sub frames, to measure suspension sags.
- Compact design, it does not take much space in your tool box.

Part #

[D59-37-180](#)

PAT. 1595308

DRC

LINK LUBE INJECTOR

- Linkage bearing grease tool.
- Allows placing bearing needles on bearing race while greasing linkage bearing.
- Will fill enough grease on your suspension linkage bearing.
- Clean linkage grease works with this tool.

Part #

[D59-18-301](#)

* Can not place all bearing needle on injection body.

Push the shaft and extrude the grease to easily stick the bearing needles.

Attach the bearing needles on the slide body.
*Can not place all bearing needles on the injection body.

Insert the tool into the linkage carefully and gently so as not to slip the bearing needles.
Push the shaft to extrude grease to attach the bearing needles inside the shell.

The bearing needles will be placed inside the shell by pushing the slide body further.

- Height adjustable lift stand for dirt bikes.
- Top plate is height-adjustable to fit under most dirt bikes.
- Easily operated durable double long-levered jack-pedal.
- Available in red and black colors.
- Maximum lifting weight is 150 kgs. (330 lbs)

PAT. 200520100979.6

Part #	Color
D36-38-311	Black
D36-38-312	Red

Fits under most dirt bikes.
Adjustable range : 250 mm - 350 mm
(10 to 14 inches)

Damper shock eliminates the sudden drop, and provides a smooth, safe landing.

Height-adjustable top plate can be secured with the lock nut.

The Top Plate has a thick, non-slip rubber surface.

" Safety Hold Hook " system prevents any accidents after lifting bike.

Easily operated durable double long-levered jack-pedal.

DRG RACER COVER JP

- Specially designed for MX and ED race bikes. (Over 125 cc)
- The bike can be moved with the cover on by opening the front and rear zippers.
- Secure adjustment of tie down belts by opening upper zipper.
- Protect your bike during transportation.
- Bike cover can be used in pits to keep your bike clean and protect the bike from night dew.

Part #	Size
D57-01-505	223 cm (87.8 inch) Height : 140 cm (55 inch)

Able to load the racing bike with covers on.

Usable with ZETA hand guards.

Belt loops on front and center of bike cover to prevent wind flap during transport.

Convenient double sliders of the zippers for handlebar provide a wide range of adjustment.

How to load the racing bike on a truck with the cover on.

STEP 1

Remove the velcro flap and open the zipper on the front wheel.

STEP 2

Lace the velcro flap into the loop on the front fender and secure.

STEP 3

Loosen the hem adjusting cord at bottom center on the bike cover.

STEP 4

Now the front tire is free to move.

STEP 5

Lace the velcro flap into the loop on the rear fender and secure.

STEP 6

The state after the flaps secured.

STEP 7

Now the rear tire is free to move.

STEP 8

Wrap a tie-down soft hooks around the handlebar then load on a truck.

DRC

OFF ROAD MOTORCYCLE COVER

- Off-road cover, all-weather type.
- Oxford fabric with excellent strength and durability.
- Front side colored in blue to easily find cover direction.
- Slit openings in front and back for security lock.
- Set the belt in the center to prevent rattling by wind.
- Comes with a storage bag (Convenient belt to hook at the bottom).

MATERIAL

COOLMAX
Coolmax is a high-performance material with the threat of quick-drying performance that is 6 times that of cotton. There are four grooves in one fiber, and the capillary action allows sweat to diffuse quickly. The diffused sweat evaporates while taking away the temperature of the body surface due to the heat of vaporization, resulting in a high cooling effect.

THERMOLITE
Thermolite is a high-performance material that has macaroni-shaped fibers and has excellent heat retention and quick-drying properties. Warm air can be retained in the hollow part of the fiber, so the warmth is maintained. In addition, it has a quick-drying performance that is 1.5 times faster than cotton, preventing sweat chills during exercise. Even in sports with intervals, the inside is always warm and dry.

Reissa membrane
A membrane that combines waterproofness, moisture permeability, and durability. While keeping the inside dry while blocking wind, rain and snow, it provides a comfortable environment. Waterproofness: 10,000mmH₂O (ISO811(E):1981) Breathability: 10,000g/m²/24h (ASTM E 96:2010)

Hipora
A membrane for gloves that combines waterproofness, moisture permeability, and durability.

3M Thinsulate
High-performance batting material. The fine fiber structure provides excellent heat insulation.

3M Scotchlite
Reflective Material

3M reflector
A world standard retroreflective material for both quality and durability.

1680D BALLISTIC POLYESTER
■ 1680D ballistic polyester
Polyester fabric with excellent abrasion resistance. It has both durability and flexibility.

SAS-TEC
body protection systems

SAS-TEC pad
Foam that slowly follows slow movements and instantly cures (hardness change) in case of fast impact. Since it is soft and light, it is ideal for motor sports where easy movement is important.

SWEAT CAP Vented

- Sweat cap especially designed for MX and motorsport riding.
- Wear the sweat cap under your helmet to prevent sweat from getting inside your goggles and/or eyes.
- High water absorption microfiber fabric is placed inside the head band to absorb sweat during your ride.
- Cap body is made of high breathable mesh for comfort.
- Best to use for hard riding in summer and winter seasons.

Part #	Size	Color	Material
DG1205-0023	S / M	Black	Polyester
DG1205-0024	L / XL		

Cap body is made of high breathable mesh.

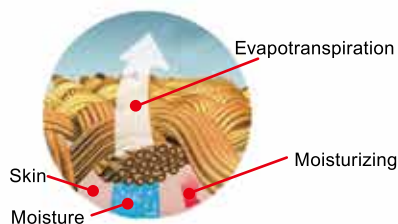

High water absorption microfiber fabric is placed inside the head band.

COOLMAX*

COOLMAX

Coolmax is a high-performance material with the threat of quick-drying performance that is 6 times that of cotton. There are four grooves in one fiber, and the capillary action allows sweat to diffuse quickly. The diffused sweat evaporates while taking away the temperature of the body surface due to the heat of vaporization, resulting in a high cooling effect.

THERMOLITE*

THERMOLITE

Thermolite is a high-performance material that has macaroni-shaped fibers and has excellent heat retention and quick-drying properties. Warm air can be retained in the hollow part of the fiber, so the warmth is maintained. In addition, it has a quick-drying performance that is 1.5 times faster than cotton, preventing sweat chills during exercise. Even in sports with intervals, the inside is always warm and dry.

DFG

SHIELD LAYER SHIRTS

- Excellent sweat absorption and quick dry material no sleeve shirt comes with chest pad.
- Easy to wear, protect your body from roost, rock, tree branches during your ride.
- Mesh panels on front and back side for maximum ventilation and breathability.

What is REVO coating?

A coating technology developed by NASA to protect the eyes from the harmful rays of the sun in outer space. The brilliant glow is a coating that is popular even in sports scenes overseas. By reducing the light transmittance, it reduces glare and cuts ultraviolet rays. Another feature is that it is not easily scratched.

DFG THROTTLE GOGGLE

- High grade outrigger strap system riding goggle.
- Outrigger strap system provides better form fits, prevents dust and water from entering goggle.
- Can be used with eye glasses with frame width up to 140mm.

DELTA BARREL 4 SILENCER

- Improved emission efficiency and exhaust pressure. DELTA BARREL 4 silencer provides high power in the entire power band.
- Special inner silencer body and multi-stage expanding mid pipe design provides power at the high end, and rich torque at bottom and middle bands.

Mid pipe is made of stainless steel. Silencer body is light weight aluminum. Exhaust center of gravity is positioned for motorcycle control performance. The best silencer for street or trail.

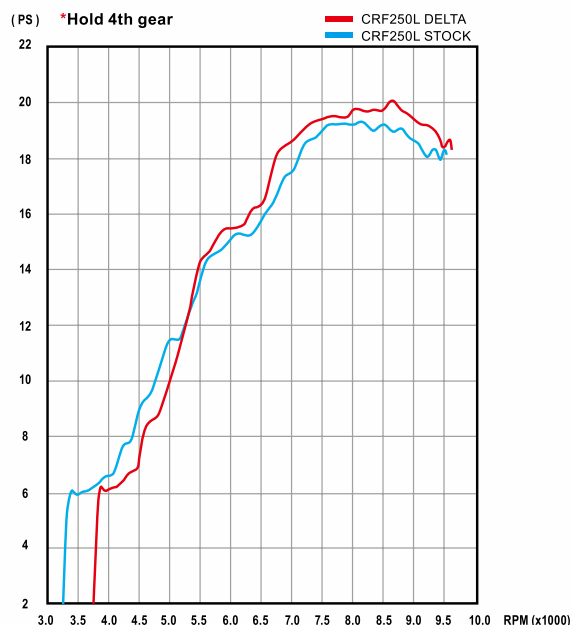

Designed for street, enduro, super motard use.

Sound output : **94 db**

FIM approved end-cap design

Use with stock or DELTA head pipe.

Gasket not included. Use stock gasket.

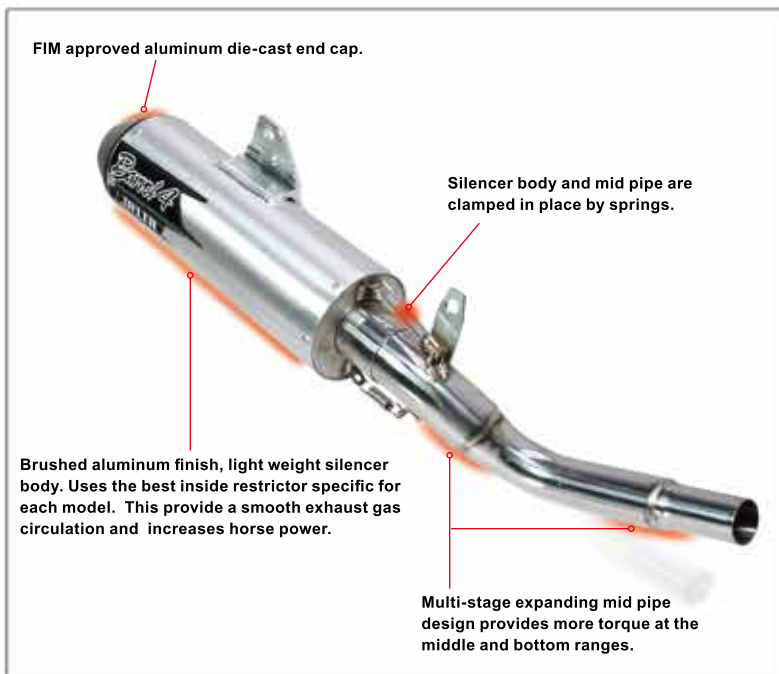

Provides more power and torque than stock pipes
Dyno graph for CRF250L as shown above.

FIM approved aluminum die-cast end cap.

Silencer body and mid pipe are clamped in place by springs.

Brushed aluminum finish, light weight silencer body. Uses the best inside restrictor specific for each model. This provide a smooth exhaust gas circulation and increases horse power.

Multi-stage expanding mid pipe design provides more torque at the middle and bottom ranges.

DELTA TORQ HEAD PIPE

- DELTA head pipe for more power and torque when using DELTA silencers.
- Developed for characteristics specific to each bike for more performance.
- Provides better power, acceleration and engine traction than stock head pipe.
- Upgrades performance characteristics for each model.
- Made of SUS304 stainless.

* See below fitting application for part no.
